

T-Mobile
for your
business

For the crazy idea that turned into
a crazy-successful business.

For the local shop that's about to
become a household name.

For the 3:00 a.m. coffee-fueled
brainstorm that will completely
transform the way you work.

**For all the things you do to keep
your business moving forward,
you need a mobile network built
to make them happen.**

Mobility to move your business forward.

Whatever your business size, our mobile-first network has the capacity, speed, and coverage to keep you connected virtually anywhere.

5G in more places

Our powerful 600 MHz signal is the foundation for our 5G network. No signal reaches more places, is more reliable, or works better both indoors and out.

Extended range LTE

Low-band spectrum penetrates buildings deeper and spreads signals farther.

Superior call quality

The first to deliver voice-over LTE (VoLTE), bringing you clear call connections, HD Voice, and super-fast LTE data speed while on calls.

Device flexibility

Enables users to add a business line to their existing device and/or multiple devices.

Speed and connectivity are really important for us. On T-Mobile for Business' network, we've improved communication with our clients, and our operations have become more seamless.

**From customizable
plans to modern solutions
built for your business,
we've got you covered.**

Everything you want in a business wireless plan.

- ✓ Unlimited talk, text, and data on our network
- ✓ No annual service contracts—ever
- ✓ Unlimited Mobile Hotspot data at up to 3G on our network
- ✓ 5GB of 4G LTE data in Mexico and Canada
- ✓ In-flight Wi-Fi on Gogo®-enabled flights
- ✓ Texting and data in 210+ countries and destinations

Qualifying plan required. During congestion, customers using >50GB/mo. may notice reduced speeds until next bill cycle due to data prioritization. Video typically streams at DVD quality (480p). Tethering at max 3G speeds after 4G allotment. International data at 2G speeds.

GEOTAB[®]

Run a more efficient fleet.

Fleet management solutions

Put comprehensive, actionable insights right at your fingertips to optimize your fleet operations.

Optimize your fleet

Boost productivity and save money by monitoring fuel usage, delivery routes, and more.

Manage compliance

Through an app that helps your business meet the ELD mandate, drivers can record their hours of service (HOS) on a secure cloud platform.

Improve safety

Give in-vehicle verbal coaching to your drivers and help keep your team safe.

Get actionable insights

Easy-to-use dashboards, customizable reporting, and maintenance reminders can help keep your fleet—and your business—running smoothly.

Take asset management to the next level.

Asset tracking solutions

Powered by the strength of our narrowband IoT (NB IoT) network, you get enhanced visibility into your end-to-end supply chain with asset tracking from Roambee.

Protect the quality of your assets

Get insights on things like location, temperature, and more.

Optimize your operations

Find assets and monitor movements to make the most of your resources.

Spend less time tracking

Less manpower equals lower overhead costs for your business.

Reduce risk of loss

Locate misplaced assets through on-demand data gathering and analysis.

T-Mobile For Business **MARKETPLACE**

Get solutions tailored to your business.

Find the software you need and the support you deserve.

Select from hand-picked apps

GoPoint™

Your all-in-one mobile point-of-sale system

Accept payments and manage your business more easily and affordably with your existing tablet or mobile device—all with 24/7 support.

Free same-day funding

Once you qualify, you can get your money the same day, with no hidden fees and on flexible terms.

Tools to manage your business

Your whole team gets the tools, reporting, and insights needed to help make your business more efficient.

Count on expert support

Get 24/7 live technical support with no hassle. Plus, get onboarding and training to bring your team up to speed.

TEAM OF EXPERTS

TEAM OF EXPERTS®

A customer service team second to none

T-Mobile for Business customers get a dedicated team of highly trained experts assigned to their account. That means real help from real people. You'll never be forced to talk to a robot again.

Get a dedicated support team

An assigned highly trained team of experts who knows you, knows your business, and can get it right the first time.

It's easy to connect with us

No confusing IVR asking you a bunch of questions and guessing where you should be routed.

Fix it yourself with self-service options

Our account hub is your all-in-one portal for managing your account virtually anytime, anywhere.

With T-Mobile, I'm not just calling some random 1-800 number and hoping the person on the other end has enough information to help. I have a personal advocate.
